WATCH ANYWHERE

5D Tutorials. Any device. Any language. Zero barriers.

5D Tutorial Shorts are quick, vertical clips — just like the videos you already scroll through every day — so they fit naturally on your phone and scale up just as easily on your desktop. Now with auto-translated captions, every 5D user can follow along in their own language, wherever they are.

PRODUCT SMARTDent : 5D Tutorial Shorts **FORMAT** Vertical Shorts, Mobile & PC Ready **ISSUED BY** HQ Imaging PM Team · WJ Jang

START WATCHING IN 4 SIMPLE STEPS

1 Open the tutorial playlist

Scan the QR code on your phone, or click the link on your PC — either way takes you straight to your **5D Tutorial Shorts** playlist.

SCAN

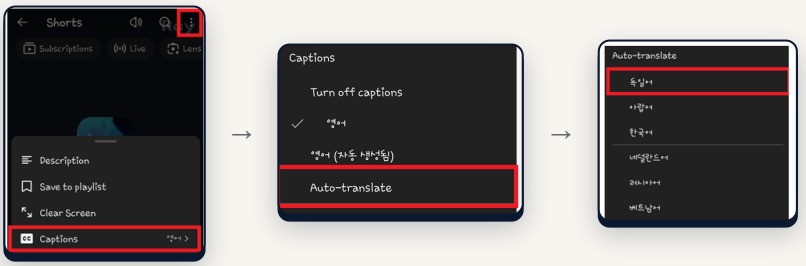

2 Select a video

Pick any video from the playlist — no app, no download, just tap and go.

3 Turn on Auto-translate

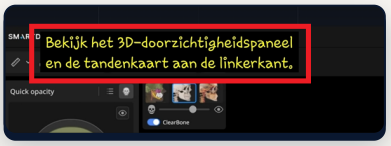

Tap ⋮ **Settings** → **Captions** → **Auto-translate**, then choose your language.

Settings Captions Pick language

4 Watch with translated captions

Live captions appear in your own language, chosen from dozens available worldwide — the same easy experience on mobile or PC, as shown here.

Note. Auto-translated captions are generated by YouTube's own translation engine and may not always be fully accurate. Please use them as a reference alongside the video.
